About us

AKAW! surfskates
aims to bring over the perfect
waves into urban environments,
break the borders between
the sea, and the earth.

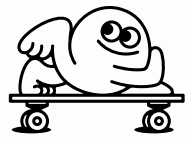

*Clay Marzo said:
«Waves are toys from God »*

AKAW! helps to get those toys closer
to you.

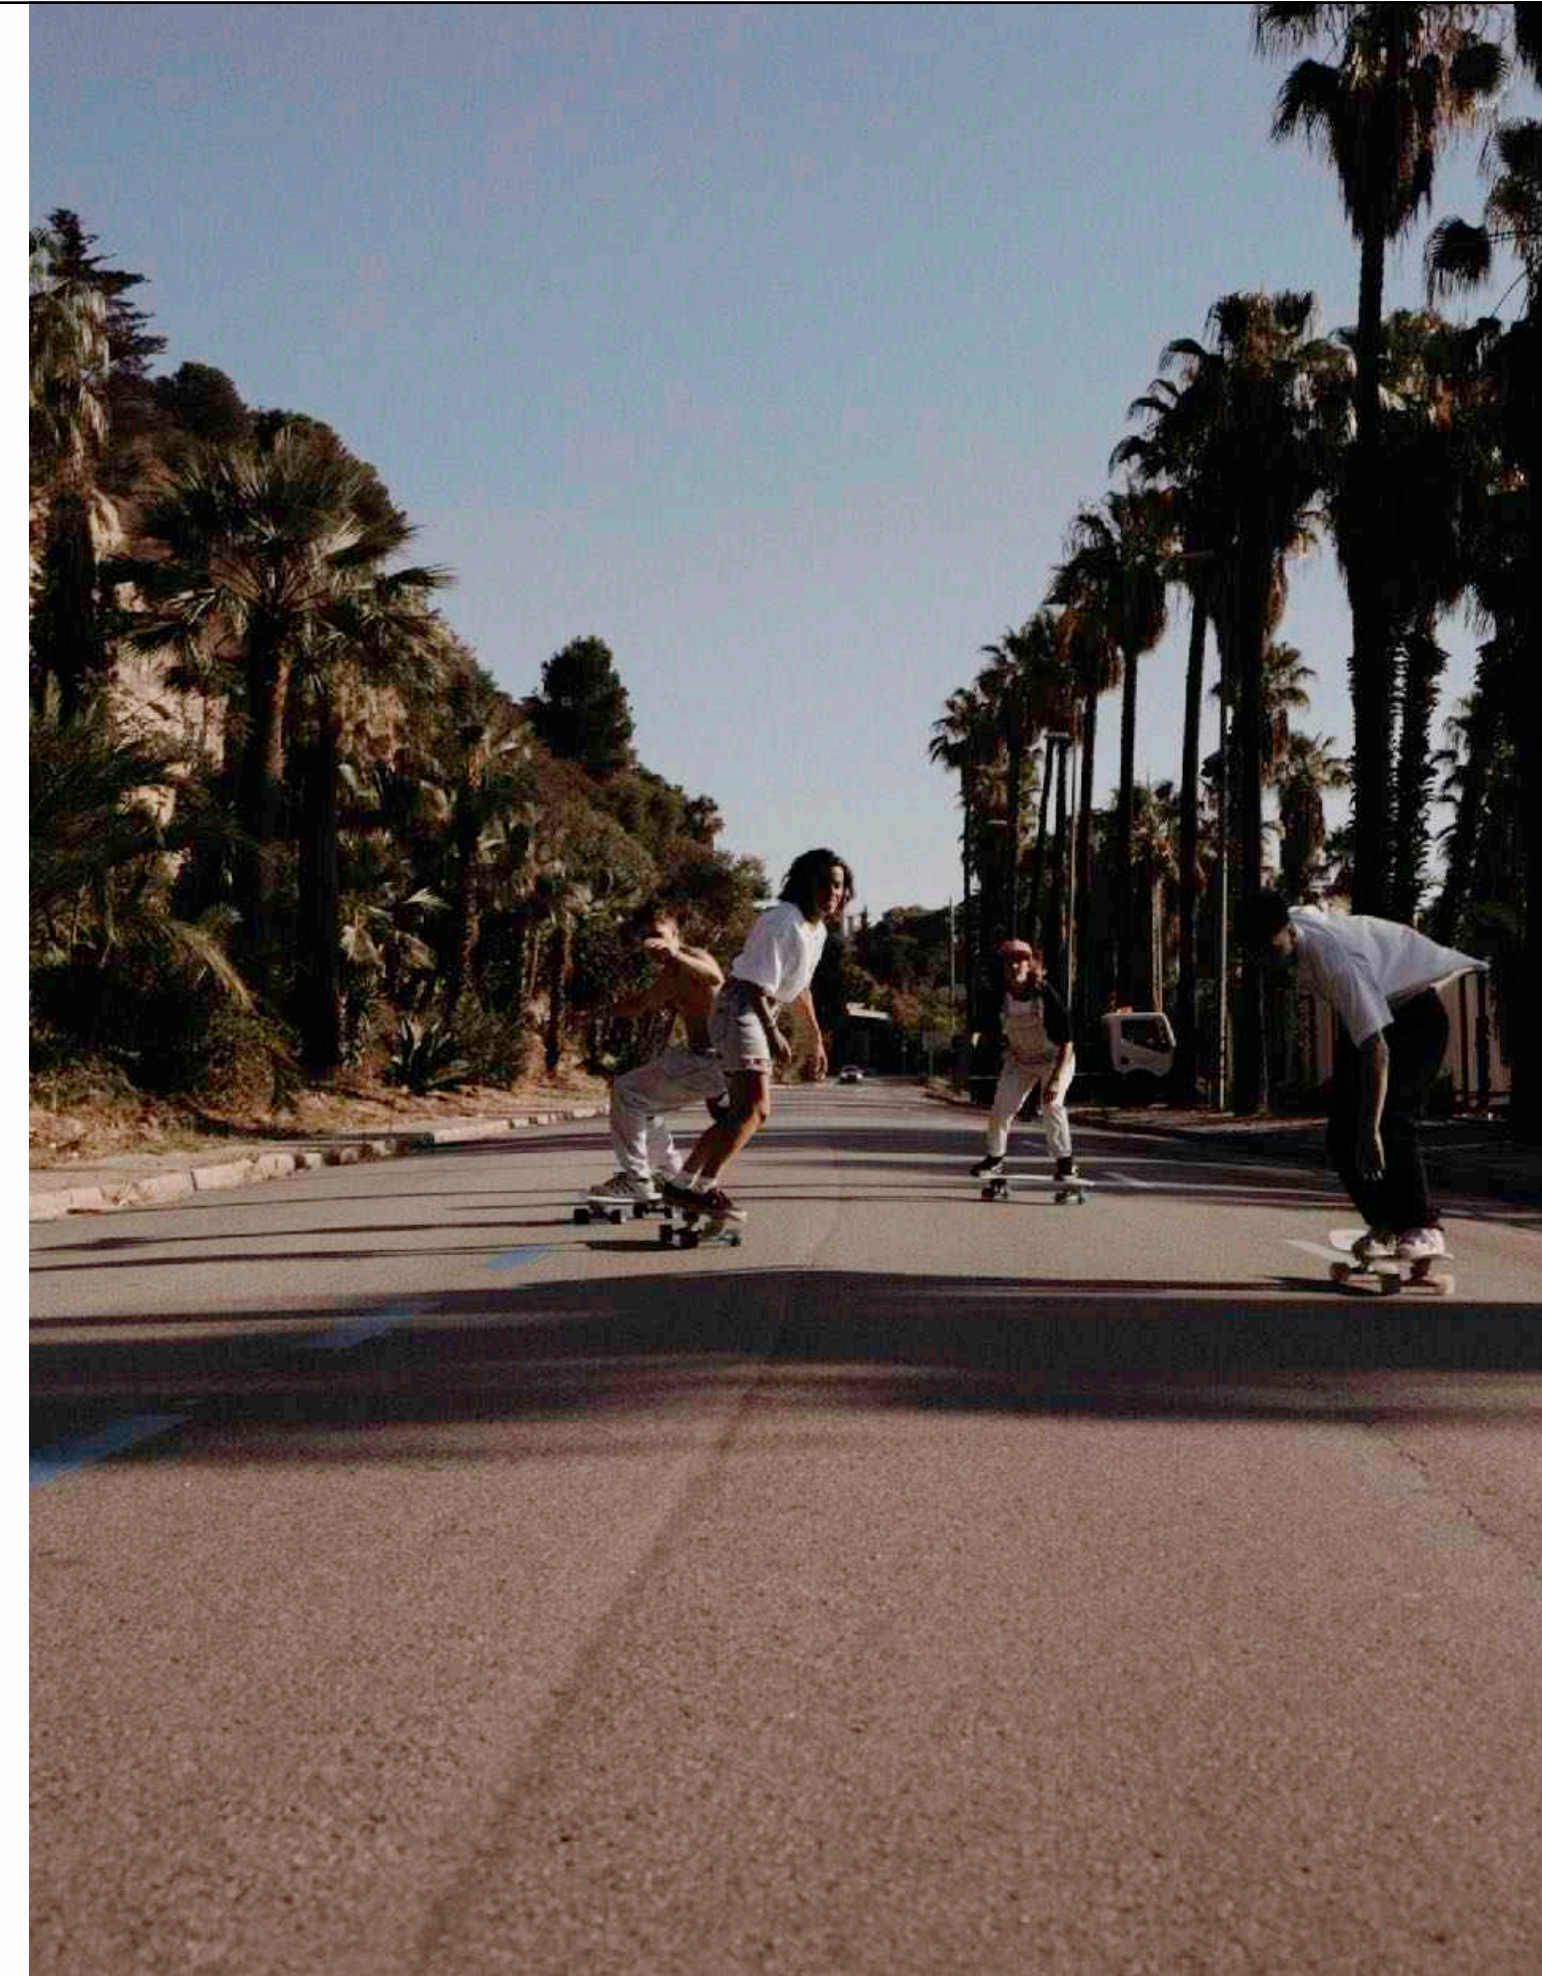

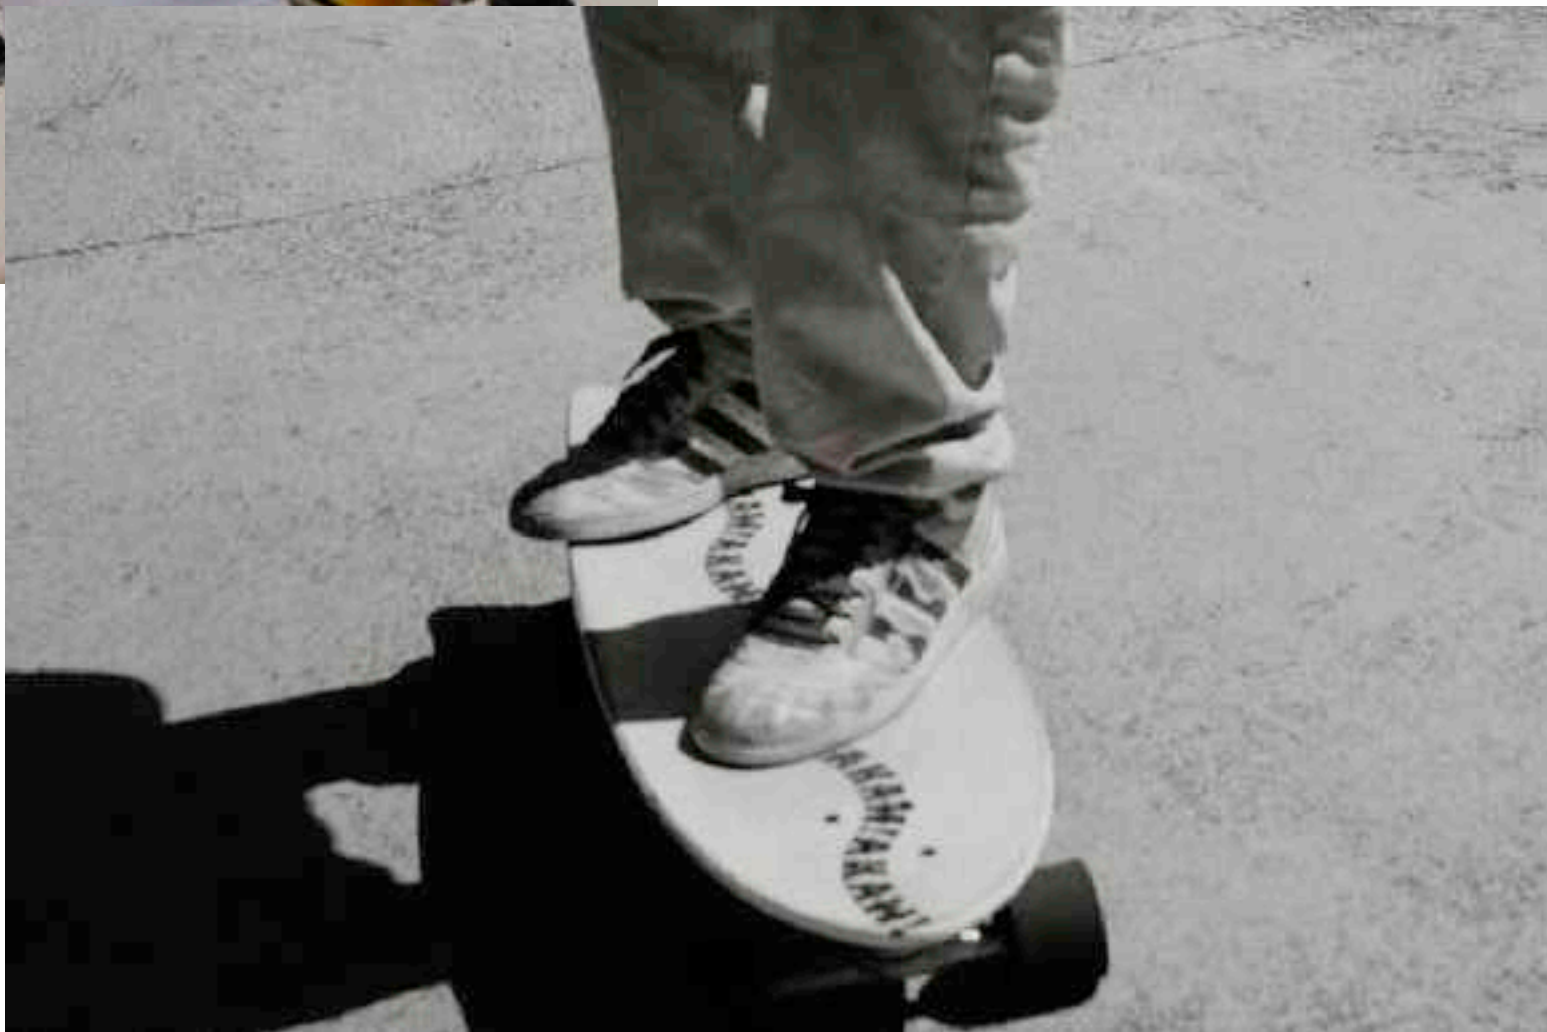

AKAW founders and passionate skaters have been
for over a year designing the most efficient truck
technology after a deep research in order to share the
closest surf experience.

AKAW! will break the natural borders
and allow you to ride real concrete waves...

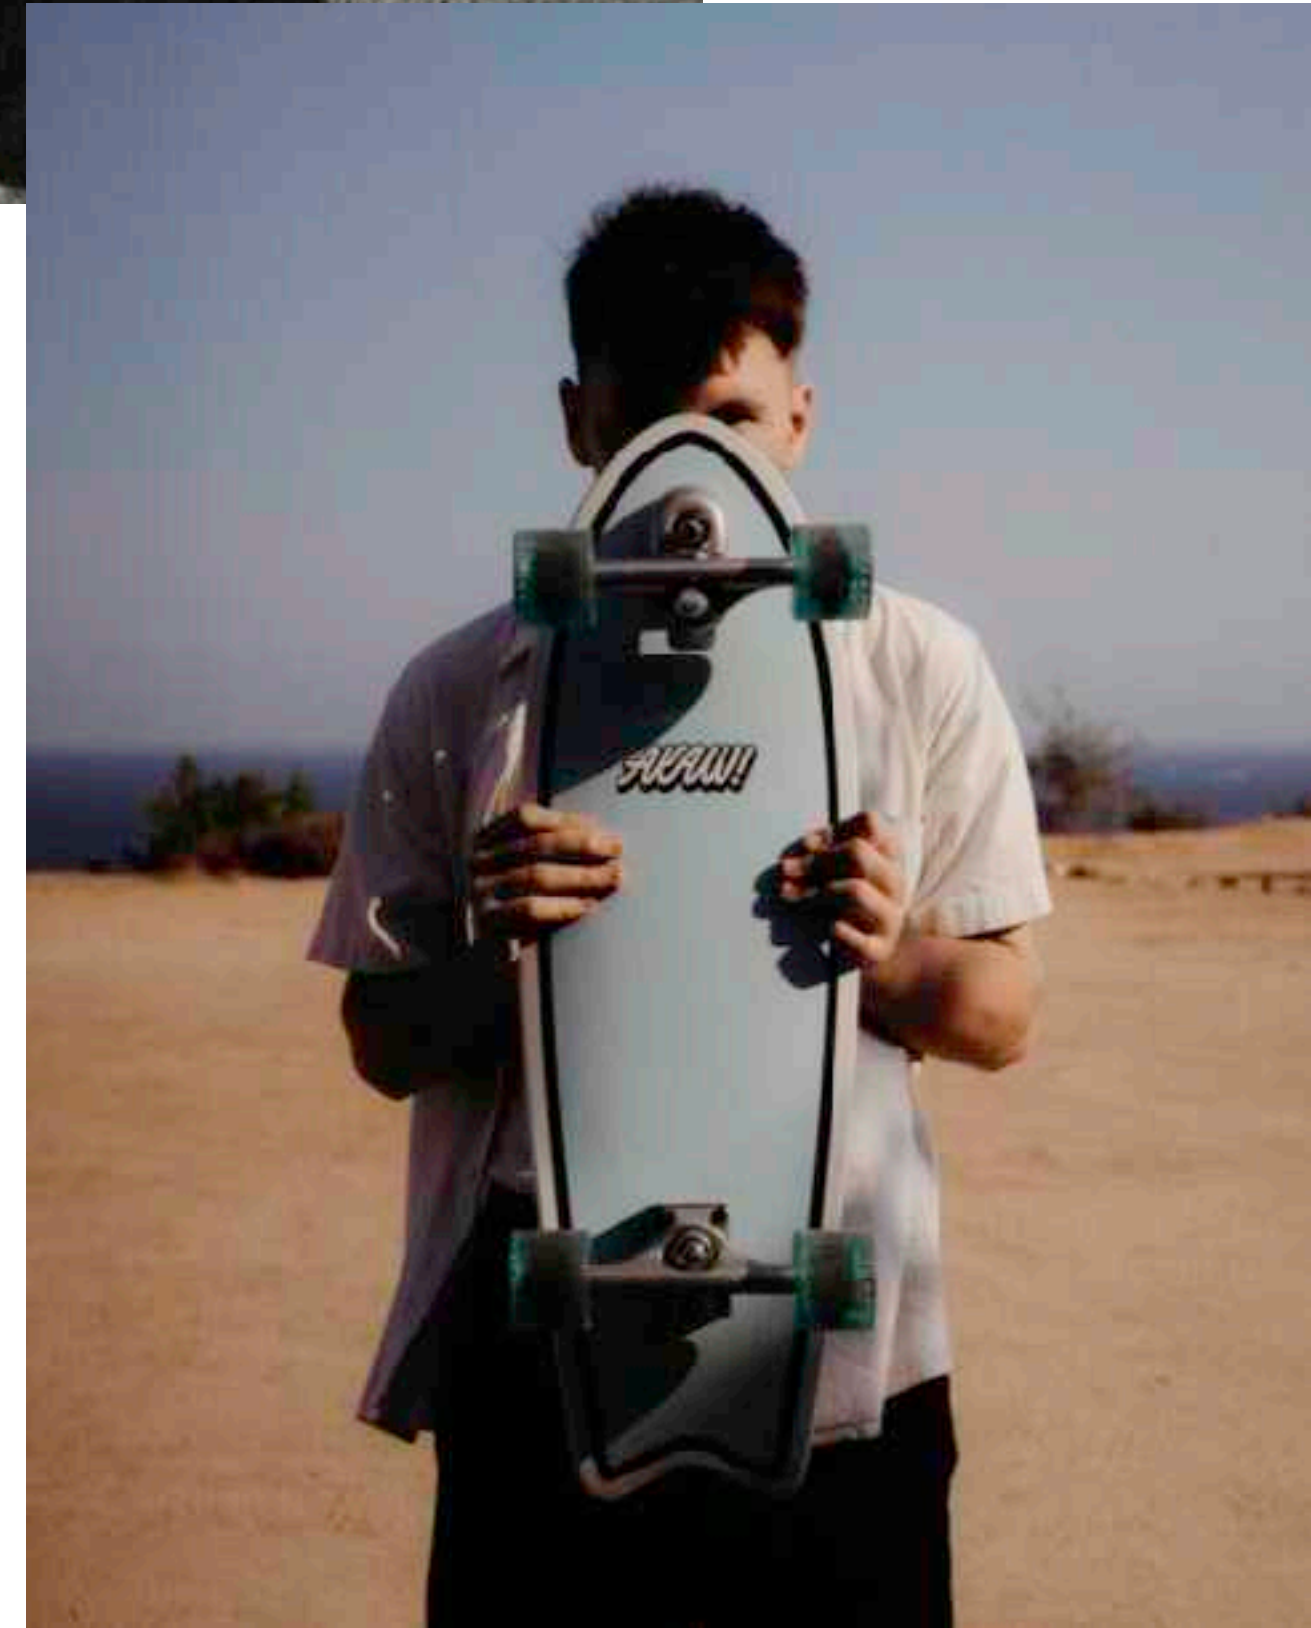

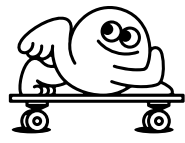

Become an [#akawexplorer](#)

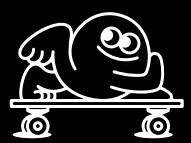

AKAW! *

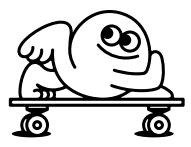

** What surfers shout when they spot a huge perfect wave,
or when they are shocked or surprised.*
